The
European Society
for Marine
Biotechnology

Second announcement – Call for REGISTRATION

Join us and learn about the development of the groundbreaking LEAF concept in antifouling for waterborne transportation, developed and demonstrated in full scale during this European project. The Final Conference will be followed by the "ESMB Day", on the topic "Combating Biofilms". Both events are free of charge. End-users, Stakeholder, Scientist and PhD students are particularly encouraged to participate.

Tuesday 29 September 2015:

**Final Conference of the European FP7 project
"LEAF – Low Emission Antifouling"**

Wednesday 30 September 2015:

**Meeting of the European Society for Marine
Biotechnology – "Combating Biofilms"**

The venue will be at "Novotel Göteborg", Gothenburg, Sweden. Conference participation is **free of charge**. Ca. 120 seats are available, which will be distributed on a first arrive - first serve basis; so do not hesitate to [register now!](#)

[Register your participation here,](#)

Open until the 12th September 2015.

Agenda and other useful documents can be found [here](#).
Check the website of [LEAF](#) and [ESMB](#) for more information.
